- 44.6% of students are from major California State campuses
- 13.8% of students are from UC campuses
- 70% of graduates were either promoted or given a better job within 6 months of graduation
- Microsoft, SpaceX, IKEA, UCI Hospital, Panasonic, Dynetics, AT&T, AbbVie, etc.

My experience at Virscend University has made me more confident in my current position. I have improved my critical thinking and problem solving skills during my studies. What attracted me most to Virscend was the small class sizes and the attentive professors, where I felt at home.  
--Calvin L., SpaceX

I have over 9 years of extensive hospitality experience spanning Portugal, Taiwan, Thailand, China and the United States. Serving many heads of state and government dignitaries, including presidents, prime ministers, royalty, ministers and ambassadors. At the time of the outbreak, the shock of the industry confused me. However, after attending the MBA program at Virscend University, I successfully transitioned to a position as a product specialist at the Apple Store and now work as a customer success trainer at Microsoft, where the content of the MBA program helped me. -- Jack L., Microsoft

All of my professors were professional, smart, experienced, and very supportive when I needed them. I don't have any business background and the course was a bit challenging, but my professors helped me to relieve the stress of studying and to be more scientific and efficient in completing my coursework step by step. The support has been incredible. My classmates were amazing and I loved that we were a small group of 16 students.  
-- Tiffanie A., UPS

After I enrolled at Virscend University, I was pleased to find that the school not only met my requirements, but also had the benefit of small class sizes. The professors' specialization helped me to have a well-rounded business mindset in my resume. The digital marketing program offered by Virscend University was also something I wanted to pursue to mix in with my technical background.  
--Joshua Y., Panasonic

## WHY VIRSCEND UNIVERSITY?

**Virscend University's main campus is located in Irvine, California. The main campus offers online and in-person MBA programs as well as undergraduate programs.**

**With flexible class times from 7-9:30 p.m., Virscend allows you to better manage your time. The school will help you organize your studies and life in the U.S. to help you achieve your MBA dream. The school also assists students with internships and jobs in the United States.**

Irvine is located in the heart of Southern California's "Tech Coast", known as the "Silicon Valley of Southern California", and its industrial diversity is unmatched by the real Silicon Valley, with biotechnology and medical institutions shining in Irvine. Irvine has been ranked as one of the best education systems in the United States for many years, the safest city in the country for five years in a row, and the most livable city in the country, making it the first choice for Chinese immigrants and homeowners.

Irvine is home to many technology industry clusters, such as medical device manufacturers, biomedical companies, computer software and hardware producers, and automotive design firms. It is not only known for its California sunshine, entrepreneurial business environment, and numerous job opportunities, especially in the high-tech and semiconductor industries. Irvine is home to 17,000 companies, including Amazon, Microsoft, Google, Samsung, Cisco, Kia Motors, Mazda Motors, Western Digital, Acer Computer, Blizzard Entertainment, Johnson & Johnson, and other world-leading corporate headquarters, divisions or North American companies. There is even In-N-Out Burger, LA FITNESS, and other unicorn companies that have their headquarters in Irvine.
